		<i>Committee use only</i>

Signature of Developer: _____ Date: _____

Active Living Neighborhood Awards of Excellence

¹ Neighborhood residents have the option of walking or riding their bikes to adjacent developments and retail nodes without having to walk on streets or cross at intersections without crosswalks

² Children can walk or ride their bike safely to school unaccompanied by adults.

³ Street furniture consists of benches, water fountains, trail markers, shelters, artwork, and other amenities that make the street environment more conducive to physical activity.

⁴ Neighborhood recreation facilities might include: swimming pool, multipurpose field, basketball court, tennis court, playground, or pavilion.

⁵ Traffic calming amenities might include: Narrow street widths to reduce traffic speed, narrowed street widths at intersections to reduce the length of travel for pedestrians or cyclists crossing the street, roundabouts at busy intersections, reduced speed limits, or textured roadways.
