

TN-510 Murfreesboro/Rutherford County Continuum of Care (CoC)

This is a call to action for our community. It takes all of us, community members, homeless service providers, mental health agencies, health care providers, court systems, community leaders, churches and especially people who are or have experienced homelessness or have been at risk of losing stable housing.

Please attend one of the five opportunities for an informative session that will lead into a final community conversation to determine the best plan for our next steps to strengthen our CoC.

Learn everything you need to know about a CoC, what it means for our community, and work with community members to determine the next steps to establish its governance and structure in the future.
