Important Notices

Important Information

Rebates and Other Payments

Cigna or its affiliates may receive rebates or other remuneration from pharmaceutical manufacturers in connection with certain Medical Pharmaceuticals covered under your plan and Prescription Drug Products included on the Prescription Drug List. These rebates or remuneration are not obtained on you or your Employer's or plan's behalf or for your benefit.

Cigna, its affiliates and the plan are not obligated to pass these rebates on to you, or apply them to your plan's Deductible if any or take them into account in determining your Copayments and/or Coinsurance. Cigna and its affiliates or designees, conduct business with various pharmaceutical manufacturers separate and apart from this plan's Medical Pharmaceutical and Prescription Drug Product benefits. Such business may include, but is not limited to, data collection, consulting, educational grants and research. Amounts received from pharmaceutical manufacturers pursuant to such arrangements are not related to this plan. Cigna and its affiliates are not required to pass on to you, and do not pass on to you, such amounts.

Coupons, Incentives and Other Communications

At various times, Cigna or its designee may send mailings to you or your Dependents or to your Physician that communicate a variety of messages, including information about Medical Pharmaceuticals and Prescription Drug Products. These mailings may contain coupons or offers from pharmaceutical manufacturers that enable you or your Dependents, at your discretion, to purchase the described Medical Pharmaceutical and Prescription Drug Product at a discount or to obtain it at no charge. Pharmaceutical manufacturers may pay for and/or provide the content for these mailings. Cigna, its affiliates and the plan are not responsible in any way for any decision you make in connection with any coupon, incentive, or other offer you may receive from a pharmaceutical manufacturer or Physician.

Specialty Prescription Drug Manufacturer Assistance and Support Benefit

Certain Specialty Prescription Drugs on the Prescription Drug List have been classified as non-essential health benefits

(NEHBs) and the cost of such NEHB Specialty Prescription Drugs will not be applied toward satisfying the Out-of-Pocket Maximum. A list of these NEHB Specialty Prescription Drugs and the applicable Coinsurance for each NEHB Specialty Prescription Drug can be accessed at www.saveonsp.com/cigna.

This list will change from time to time.

If you are prescribed one of these NEHB Specialty Prescription Drugs, you will be contacted by SaveOn SP, LLC ("SaveOnSP") and required to enroll in the applicable prescription drug manufacturer assistance or support program. Once enrolled, you provide SaveOn SP with consent to monitor your account. Any Coinsurance required for NEHB Specialty Prescription Drugs and/or any Coinsurance remaining after the available prescription drug manufacturer assistance is applied or is exhausted will be credited, and your Out-of-Pocket cost share will be reduced to \$0.00. In the event you fail to enroll in the applicable prescription drug manufacturer assistance or support program, or you do not provide consent to SaveOnSP to monitor your account, you will be responsible for the full required Coinsurance for the NEHB Specialty Prescription Drug without such payment applying to the Out-of-Pocket Maximum.

In the event you enroll, or attempt to enroll, in the applicable/available prescription drug manufacturer assistance or support program and are denied any and all prescription drug manufacturer assistance or support due to a prescription drug manufacturer and/or legal restriction, the required Coinsurance for the NEHB Specialty Prescription Drugs will be credited and your Out-of-Pocket cost share will be reduced to \$0.00, so long as you have given SaveOnSP consent to monitor your account.

Open Access Plus Medical Benefits

Transplant Services and Related Specialty Care

Charges made for human organ and tissue transplant services which include solid organ and bone marrow/stem cell procedures at designated facilities throughout the United States or its territories. This coverage is subject to the following conditions and limitations.

Transplant services include the recipient's medical, surgical and Hospital services; inpatient immunosuppressive medications; and costs for organ or bone marrow/stem cell procurement. Transplant services are covered only if they are required to perform any of the following human to human organ or tissue transplants: allogeneic bone marrow/stem cell, autologous bone marrow/stem cell, cornea, heart, heart/lung, kidney, kidney/pancreas, liver, lung, pancreas or intestine which includes small bowel-liver or multi-visceral. Implantation procedures are also covered for artificial heart, percutaneous ventricular assist device (PVAD), extracorporeal membrane oxygenation (ECMO) ventricular assist device (VAD) and intra-aortic balloon pump (IABP) are also covered.

- All transplant services and related specialty care services, other than cornea transplants, are covered when received at Cigna LifeSOURCE Transplant Network[®] facilities.
- Transplant services and related specialty care services received at Participating Provider facilities specifically contracted with Cigna for those transplant services and related specialty care services, other than Cigna LifeSOURCE Transplant Network[®] facilities, are payable at the In-Network level.
- Transplant services and related specialty care services received at any other facility, including non-Participating Provider facilities and Participating Provider facilities not specifically contracted with Cigna for transplant services and related specialty care services, are covered at the Out-of-Network level.
- Cornea transplants received at a facility that is specifically contracted with Cigna for this type of transplant are payable at the In-Network level.

Coverage for organ procurement costs are limited to costs directly related to the procurement of an organ, from a cadaver or a live donor. Organ procurement costs shall consist of hospitalization and surgery necessary for removal of an organ and transportation of a live donor (refer to Transplant and Related Specialty Care Travel Services). Compatibility testing undertaken prior to procurement is covered if Medically Necessary. Costs related to the search for, and identification of a bone marrow or stem cell donor for an allogeneic transplant are also covered.

Transplant and Related Specialty Care Travel Services

Charges made for non-taxable travel expenses incurred by you in connection with a preapproved organ/tissue transplant are covered subject to the following conditions and limitations:

- Transplant and related specialty care travel benefits are not available for cornea transplants.
- Benefits for transportation and lodging are available to the recipient of a preapproved organ/tissue transplant and/or related specialty care from a designated Cigna LifeSOURCE Transplant Network[®] facility.
- The term recipient is defined to include a person receiving authorized transplant related services during any of the following: evaluation, candidacy, transplant event, or post-transplant care.
- Travel expenses for the person receiving the transplant will include charges for: transportation to and from the designated Cigna LifeSOURCE Transplant Network[®] facility (including charges for a rental car used during a period of care at the designated Cigna LifeSOURCE Transplant Network[®] facility); and lodging while at, or traveling to and from, the designated Cigna LifeSOURCE Transplant Network[®] facility.
- In addition to your coverage for the charges associated with the items above, such charges will also be considered covered travel expenses for one companion to accompany you. The term companion includes your spouse, a member of your family, your legal guardian, or any person not related to you, but actively involved as your caregiver who is at least 18 years of age.
- The following are specifically excluded travel expenses: any expenses that if reimbursed would be taxable income, travel costs incurred due to travel within 60 miles of your home; food and meals; laundry bills; telephone bills; alcohol or tobacco products; and charges for transportation that exceed coach class rates.

These benefits for Transplant Services and Related Specialty Care, and for Transplant and Related Specialty Care Travel Services are only available when the covered person is the recipient of an organ/tissue transplant. Travel expenses for the designated live donor for a covered recipient are covered subject to the same conditions and limitations noted above. Charges for the expenses of a donor companion are not covered. No transplant and related specialty care services or travel benefits are available when the covered person is the donor for an organ/tissue transplant, the transplant recipient's plan would cover all donor costs.

Advanced Cellular Therapy

Charges for advanced cellular therapy products and services directly related to their administration are covered when Medically Necessary. Coverage includes the cost of the advanced cellular therapy product; medical, surgical, and facility services directly related to administration of the advanced cellular therapy product, and professional services.

Cigna determines which U.S. Food and Drug Administration (FDA) approved products are in the category of advanced cellular therapy, based on the nature of the treatment and how it is manufactured, distributed and administered. An example of advanced cellular therapy is chimeric antigen receptor (CAR) T-cell therapy that redirects a person's T cells to recognize and kill a specific type of cancer cell.

Advanced cellular therapy products and their administration are covered at the In-Network benefit level when prior authorized to be received at a provider contracted with Cigna for the specific advanced cellular therapy product and related services. Advanced cellular therapy products and their administration received from a provider that is not contracted with Cigna for the specific advanced cellular therapy product and related services are not covered.

Advanced Cellular Therapy Travel Services

Charges made for non-taxable travel expenses incurred by you in connection with a prior authorized advanced cellular therapy product are covered, subject to the following conditions and limitations.

Benefits for transportation and lodging are available to you only when:

- you are the recipient of a prior authorized advanced cellular therapy product;
- the term recipient is defined to include a person receiving prior authorized advanced cellular therapy related services during any of the following: evaluation, candidacy, event, or post care;
- the advanced cellular therapy products and services directly related to their administration are received at a provider contracted with Cigna for the specific advanced cellular therapy product and related services; and
- the provider is not available within a 60 mile radius of your primary home residence.

Travel expenses for the person receiving the advanced cellular therapy include charges for: transportation to and from the advanced cellular therapy site (including charges for a rental car used during a period of care at the facility); and lodging while at, or traveling to and from, the site.

In addition to your coverage for the charges associated with the items above, such charges will also be considered covered travel expenses for one companion to accompany you. The term companion includes your spouse, a member of your

family, your legal guardian, or any person not related to you, but actively involved as your caregiver who is at least 18 years of age.

The following are specifically excluded travel expenses: any expenses that if reimbursed would be taxable income, travel costs incurred due to travel within a 60 mile radius of your primary home residence; food and meals; laundry bills; telephone bills; alcohol or tobacco products; and charges for transportation that exceed coach class rates.

Medical Pharmaceuticals

The plan covers charges made for Medical Pharmaceuticals that may be administered in an Inpatient setting, Outpatient setting, Physician's office, or in a covered person's home.

Benefits under this section are provided only for Medical Pharmaceuticals that, because of their characteristics as determined by Cigna, require a qualified licensed health care professional to administer or directly supervise administration.

Certain Medical Pharmaceuticals are subject to prior authorization requirements or other coverage conditions. Additionally, certain Medical Pharmaceuticals are subject to step therapy requirements. This means that in order to receive coverage, the covered person may be required to try a specific Medical Pharmaceutical before trying others. Medical Pharmaceuticals administered in an Inpatient facility are reviewed per Inpatient review guidelines.

Cigna determines the utilization management requirements and other coverage conditions that apply to a Medical Pharmaceutical by considering a number of factors:

- Clinical factors, which may include Cigna's evaluations of the site of care and the relative safety or relative efficacy of Medical Pharmaceuticals.
- Economic factors, which may include the cost of the Medical Pharmaceutical and assessments of cost effectiveness after rebates.

The coverage criteria for a Medical Pharmaceutical may change periodically for various reasons. For example, a Medical Pharmaceutical may be removed from the market, a new Medical Pharmaceutical in the same therapeutic class as a Medical Pharmaceutical may become available, or other market events may occur. Market events that may affect the coverage status of a Medical Pharmaceutical include an increase in the cost of a Medical Pharmaceutical.

Certain Medical Pharmaceuticals that are used for treatment of complex chronic conditions, are high cost, and are administered and handled in a specialized manner may be subject to additional coverage criteria or require

administration by a participating provider in the network for the Cigna Pathwell Specialty Network. Cigna determines which injections, infusions, and implantable drugs are subject to these criteria and requirements.

The Cigna Pathwell Specialty Network includes contracted physician offices, ambulatory infusion centers, home and outpatient hospital infusion centers, and contracted specialty pharmacies. When the Cigna Pathwell Specialty Network cannot meet the clinical needs of the customer as determined by Cigna, exceptions are considered and approved when appropriate.

A complete list of those Medical Pharmaceuticals subject to additional coverage criteria or that require administration by a participating provider in the Cigna Pathwell Specialty Network is available at www.cigna.com/PathwellSpecialty.

The following are not covered under the plan:

- Medical Pharmaceutical regimens that have a Therapeutic Equivalent or Therapeutic Alternative to another covered Prescription Drug Product(s);
- Medical Pharmaceuticals newly approved by the Food & Drug Administration (FDA) up to the first 180 days following its market launch;
- Medical Pharmaceutical regimens for which there is an appropriate lower cost alternative for treatment.

In the event a covered Medical Pharmaceutical is not clinically appropriate, Cigna makes available an exception process to allow for access to non-covered drugs when Medically Necessary.

Cigna may consider certain Medical Pharmaceutical regimens as preferred when they are clinically effective treatments and the most cost effective. Preferred regimens are covered unless the covered person is not a candidate for the regimen and a Medical Necessity coverage exception is obtained.

Prescription Drug Benefits The Schedule

For You and Your Dependents

This plan provides Prescription Drug benefits for Prescription Drug Products provided by Pharmacies as shown in this Schedule. To receive Prescription Drug Benefits, you and your Dependents may be required to pay a Deductible, Copayment or Coinsurance requirement for Covered Expenses for Prescription Drug Products.

You and your Dependents will pay 100% of the cost of any Prescription Drug Product excluded from coverage under this plan. The amount you and your Dependent pays for any excluded Prescription Drug Product to the dispensing Pharmacy, will not count towards your Deductible, if any, or Out-of-Pocket Maximum.

Copayments (Copay)

Copayments are amounts to be paid by you or your Dependent for covered Prescription Drug Products.

Out-of-Pocket Expenses

Out-of-Pocket Expenses are Covered Expenses incurred at a Pharmacy for Prescription Drug Products for which the Plan provides no payment because of the Coinsurance factor and any Copayments or Deductibles. When the Out-of-Pocket Maximum shown in The Schedule is reached, benefits are payable at 100%.

BENEFIT HIGHLIGHTS	NETWORK PHARMACY	NON-NETWORK PHARMACY						
<p>Patient Assurance Program</p> <p>Your plan offers additional discounts for certain covered Prescription Drug Products that are dispensed by a retail or home delivery Network Pharmacy included in what is known as the “Patient Assurance Program”. As may be described elsewhere in this plan, from time to time Cigna may directly or indirectly enter into arrangements with pharmaceutical manufacturers for discounts that result in a reduction of your Out-of-Pocket Expenses for certain covered Prescription Drug Products for which Cigna directly or indirectly earns the discounts. Specifically, some or all of the Patient Assurance Program discount earned by Cigna for certain covered Prescription Drug Products included in the Patient Assurance Program is applied or credited to a portion of your Copayment or Coinsurance, if any. The Copayment or Coinsurance, if any, otherwise applicable to those certain covered Prescription Drug Products as set forth in The Schedule may be reduced in order for Patient Assurance Program discounts earned by Cigna to be applied or credited to the Copayment or Coinsurance, if any, as described above.</p> <p>For example, certain insulin product(s) covered under the Prescription Drug Benefit for which Cigna directly or indirectly earns a discount in connection with the Patient Assurance Program shall result in a credit toward some or all of your Copayment or Coinsurance, if any, which, as noted, may be reduced from the amount set forth in The Schedule, for the insulin product. In addition, the covered insulin products eligible for Patient Assurance Program discounts shall not be subject to the Deductible, if any.</p> <p>Your Copayment or Coinsurance payment, if any, for covered Prescription Drug Products under the Patient Assurance Program counts toward your Out-of-Pocket Maximum.</p> <p>Any Patient Assurance Program discount that is used to satisfy your Copayment or Coinsurance, if any, for covered Prescription Drug Products under the Patient Assurance Program counts toward your Out-of-Pocket Maximum.</p> <p>Please note that the Patient Assurance Program discounts that Cigna may earn for Prescription Drug Products, and may apply or credit to your Copayment or Coinsurance, if any, in connection with the Patient Assurance Program are unrelated to any rebates or other payments that Cigna may earn from a pharmaceutical manufacturer for the same or other Prescription Drug Products. Except as may be noted elsewhere in this plan, you are not entitled to the benefit of those rebates or other payments earned by Cigna because they are unrelated to the Patient Assurance Program. Additionally, the availability of the Patient Assurance Program, as well as the Prescription Drug Products included in the Patient Assurance Program and/or your Copayment or Coinsurance, if any for those eligible Prescription Drug Products, may change from time to time depending on factors including, but not limited to, the continued availability of the Patient Assurance Program discount(s) to Cigna in connection with the Patient Assurance Program. More information about the Patient Assurance Program including the Prescription Drug Products included in the program, is available at the website shown on your ID card or by calling member services at the telephone number on your ID card.</p>

Definitions

Medical Pharmaceutical

Medical Pharmaceuticals are used for treatment of complex chronic conditions, are administered and handled in a specialized manner, and may be high cost. Because of their characteristics, they require a qualified Physician to administer or directly supervise administration. Some Medical Pharmaceuticals may initially or typically require Physician oversight but subsequently may be self-administered under certain conditions specified in the product's FDA labeling.
